1. Be nice to people, and when you can't be nice, be neutral.
2. No hate speech. None of that kind of stuff.
3. Take it E-Z in the comments. There's no need to get aggressive about HAP vs. NotchLC. There are nice people on both sides.
4. If you have a bad experience with a vendor or company that you'd like to share, please do so only if you feel comfortable putting your name next to that content in a publicly shared context. We're not saying that you can't complain about how something works, or things to watch out for from a specific vendor. It's a small world. We live in a democracy, after all. Just proceed with caution.
5. No politics. Knowing that the definition of "politics" is subjective, just avoid explicit endorsements of politicians or political parties. For example – don't say "vote for blah blah blah" but you can say "people should be paid fairly."
