

_Welcome

Hello and welcome to the Tech Almanac !

It's pretty cool, thanks for checking it out. [Read our mission statement](#)

Visitors

If you're visiting as a **viewer**, please be sure to read our [privacy policy and other legal blah blah](#), please also read our [community rules](#).

Contributors

If you're visiting as a **contributor**, (please read our [legal](#)) and then read our [on-boarding document](#). This document breaks out formatting, tone, organizational hierarchy, image use, and tagging. Ultimately, this Almanac is an on-going work-in-progress, community based document – so trust the imperfect process. Try to follow the formatting and tone, but coming close-enough, is good-enough. Admins will remove, edit, or adjust as necessary.
